Install meetme application

This app is only available on the App Store for iPhone. MeetMe helps you find new people nearby who share your interests and want to talk now! It's fun, friendly and free! Join 100+ MILLION PEOPLE chatting and making new friends. What are you waiting for? Download the best app for finding new friends to chat!----- What do our members say: I've met people I'd never have met otherwise. And it's easy to talk to people. It just makes life a little better in my opinion. [It's] probably one of the biggest places... greater diversity of people... everyone is in one place... meeting new people. MeetMe gave me a chance to talk to really great people. ----- MeetMe+ InformationWhile MeetMe is available for free, we also offer an optional premium subscription service called MeetMe+. MeetMe+ is available in one-month (\$7.99), quarterly (\$17.99) and six-month (\$29.99) packages. Keep in touch with all subscriptions: - Payment will be charged to your iTunes account with purchase confirmation. - Your subscription is automatically renewed for the same amount as the original subscription unless auto-renew is honest at least 24 hours before the end of the current subscription period. - Your account will be charged for renewal within 24 hours before the end of the current subscription period. - You can manage and turn off automatic renewal at any time by accessing your iTunes account settings after you make a purchase. - You cannot cancel your current subscription during the active subscription period. View our Terms of Service at: our privacy policy at: Jan 14, 2021 Version 14.23.0 - Bug fixes and performance optimization So I had this app back when it was still considered Myyearbook and more of a social network. There were games, causes to donate, etc. Then she turned to meet me and I kept her. I absolutely love lives and I love the fact that you can cash in your diamonds for money and give gifts. However, I found that there are a few things that really bother me. 1- There seem to be several features that are only available to some users. It seems that some people can turn their diamonds back into coins to gift users, while others can't. 2-Many of the users and some top streamers are known for bullying, going to other live streams to cause problems and simply making nasty and rude remarks. Adding bouncers was great, but overall bullying really makes cyberbullying a problem. It seems that 3-simple features like sharing a live stream link via explosion to your favorite list are only available to certain users. Overall, the app is fun, but life seems to overshadow the app and other features can be integrated to maybe get better again (as I really enjoyed Myyearbook). I have this app several years and instead of being better through beautiful features such as me or live stream service, it's gotten progressively worse. I don't usually write reviews. As always, this is probably my third ever. This app, while a nice way to connect and find people with similar interests, is completely destroyed by most users abusing these features. There are many people from all over the world who badgers, they also make around the world that it's not fun to talk to others because of the huge amounts of people who seek sexual interactions or simply harass other users and never take any action. Then there are the problems with the robots. So many robots are sending Hi! More than once until you block them. Low and lo and behold, another one pops up shortly afterwards. If these are not these randomly generated bots then you will receive those who show older people looking for sugar babies who then give you fake automated kik accounts and try to continue with your credit/debit card details. They will also try to give you a fake tracking phone number that is also unsafe. In the end, as I stated before the live streaming service, while it's a neat feature, it's usually people who for whatever reason have random problems with people or generally just sit there to be attractive trying to get people to send them money or Diamonds. It used to be a very nice app, but now it's the dusty road of what it used to be. I don't like writing reviews because it's a waste of time. But I've had so many problems with this app that I have to solve it. I used MeetMe in the past a few years ago and it worked fine. It was the best app I ever used at the time. But one day when I was logging in from the app to take a break, I tried to sign in again, but it didn't accept the password I'd been using for years. And then when I was tired of putting things in, I tried to reset to try the password, but nothing was ever sent to my email. So I lost that account. The second profile I tried to create, everything was going smoothly. However, after a few weeks I wanted to change my photos. The app had other plans. The app kept bringing photos that I was trying to delete. Then he wouldn't let me update my biography. I was frustrated at the moment and I closed that account. I'm here now in 2019. For this account, I promised myself this would be the last one I'd do with MeetMe. However, with this one, while I was trying to log in and it asked me to upload some photos, I couldn't upload any photos. I tried and tried for at least an hour. I tried to contact support, but it always ends up going nowhere. This app is a complete waste of my time and I honestly wouldn't recommend it. There's a reason other apps work better and it's slowly starting to fail!!! The developer, MeetMe, Inc., has indicated that the app's privacy practices may include data handling as described below. Additional see the developer's privacy policy. The following data can be used to track in all owned apps and sites Companies: Purchase Location Identifiers Use data Other information The following information may be collected and linked to your identity: Purchase of contact location information User content identifiers Use data Sensitive data Diagnostics of other data The following data may be collected but not related to your identity: Privacy practices may vary, for example, depending on the features you use or your age.
